

ENCAPSULATED STRIPPING AND SPLITTING EQUIPMENT

Tools designed to protect

AnTech's range of Stripping and Splitting tools represent the industry standard for the safe removal of line encapsulation. Take away those hacksaws and knives and say goodbye to injury. Our range of tools can split multiple lines in a flatpack and then strip the encapsulation to expose the wire. With a unique design that enables simple, quick and safe operation while preventing line damage there is no better solution.

Operator safety is key

Protecting operators' hands is vital; our tools ensure you can carry out procedures quickly, simply and safely. Whether stripping or splitting a line at the wellsite or back in the yard they take just one person to operate, they are simple to use and there is no damage to the line. Why take the risk when you have a simple solution that is easy and quick to use?

Prevents Line Damage

The unique design of each tool ensures the plastic encapsulation is stripped away without causing surface damage to the internal metal line(s). This is essential to maintain the integrity of the line.

Simple to Use

Removing encapsulation and splitting lines was always a time consuming chore. Now, the task can be completed by just one person, in a fraction of the time.

Flexible Application

For use on electric or hydraulic, single or multiple lines. Can also be used to remove encapsulation from flat-pack ranging from 11 x 11 mm to 65 x 15mm. Tools are available for mid-line stripping and for cabling of unusual size.

Product Range

Splitters

- Hand
- Air Powered

Strippers

- Hand
- Air Powered
- Mid Line Hand and Air Powered

Strip and Split the Cable – Not your Fingers!

Ratings and Specifications

Product Range	Specification
Stripper – Hand and Air Powered	
Line diameter	1/8", 1/4", 5/16", 3/8", 7/16", 1/2", 5/16"
Max encapsulation size	11.0-14.1mm
Splitters – Hand / Air Powered	
Flatpack size	Standard - Up to 40mm x 13mm
Flatpack size	Large - Type A - 40mm to 65mm x 14mm to 18mm
Flatpack size	Large - Type B - 65 x 12mm flatpack
Mid Line Stripper – Hand / Air Powered	
Line diameter	1/4", 3/8"

About AnTech

AnTech have been designing products to ensure safe wellsite operations since 1992. It's wide range of products are used for coiled tubing, drilling, permanent completions and wireline operations. With a focus on customer service and quality and ensuring products are purpose built for the intended application, AnTech is a name that is trusted around the world. Please contact us for more information on our encapsulated splitting and stripping tools, or any of other products.
